Biological and Cultural Studies

SPEAKERS

RODRIGO PROUST

During his 28 years of experience, Mr. Proust has successfully managed environmental companies with more than 100 clients, being involved in business development, field operations, proposal preparation, and reporting of field investigations. With both a B.S in Geology and a M.S. in Geophysics , his extensive experience with soil and groundwater investigation and remediation has included projects dealing with soil drilling, excavation, soil remediation, groundwater monitoring, well installation, aquifer characterization, producing water discharge programs, UST and landfill investigations, EPA protocols, LUFT guidelines, health and safety risk assessments, and much more.

JEFFREY RANDLE, Environmental Professional/Project Manager

California, REA I 07736

ASTM Training for Phase I Site, Assessments for Commercial R.E.

Personal Communications Industry Association (PCIA),

Compliance with the FCC's New 'Nationwide Programmatic Agreement'

Since 1996, Mr. Randle has served as a project manager handling environmental compliance for the construction of over 2,000 telecommunications facilities throughout California, Arizona, Nevada, Utah, Oregon, Idaho and Hawaii. He is responsible for quality assurance, quality control, and timely organization of environmental site assessments and geotechnical investigations as well as corporate communications between both clients and sub consultants.
